Project MCSIT

Welcome to MCSIT

MCSIT has been quenching the thirst of knowledge not only of the people of Muzaffarabad, but also the people of far-from areas since 2009. It has ever worked hard to come up the expectation of people. That is why, MCSIT has appointed well trained and highly qualified staff. With the passage of time, it has introduced and been introducing many new courses to fulfill the demand of the people. The programs are not tailored for the popular market but for the real need of our country's economy and manpower development. And second focal point is training. In addition to it, MCSIT runs training programs seminars and workshops for the benefit of public sector and community at large. MCSIT believes that this is its contribution to development of professional manpower which is enriching society as a whole.

MCSIT is registered with AJK-TEVTA & Govt. of Azad Jammu & Kashmir.

MCSIT Profile:
We are glad to share that MCSIT (MOON CREATIONS SCHOOL OF INFORMATION TECHNOLOGY) has provided the students valuable opportunity to enhance their education. The services are commendable, and we hope MCSIT will continue to strive hard to provide the students with the best possible education.

Introduction:
MCSIT aims at equipping its students with highly regarded qualifications, skills and experience that will fulfill their career aspirations and enrich their future lives. The accomplishments of our students reflect our commitment to quality. Our students have successfully entered the working world and excelled in their field of study.

Faculty:
The quality of our education is a mirror image of our faculty. The faculty and staff of MCSIT take personal interest in each student's success. The MCSIT's dedicated academic and administrative staff works hard to keep MCSIT warm, human and friendly institute.

Computer Lab:
We are pride of having some of the best computer lab with PC's of latest technology. All PC's are supported by Latest Operating System / Windows 7 Network and are available for long hours. Every PC's has an identical interface to a very extensive portfolio of powerful software. All students are given access to internet and to electronic mail. In addition to our fully networked PC's we have projectors and laser printers that make the learning environment rich and dynamic.
